DIRECT MARKETING EDUCATION

Situation

Development pressure in Placer County, the fastest growing in the state, is threatening agriculture. Subdivisions and strip malls are covering once-fertile farmland. The result: a dwindling proportion of Placer County residents are connected to the land and local food systems

Research and Education Grant

Title: Fresh, From Our Family to Yours: Direct Marketing Education for Producers

Project Number: SW04-058

Principal Investigator

PlacerGROWN Board of Directors
11477 E. Avenue
Auburn, CA 95603
530.889.7398
placergrown@gmail.com
www.placergrown.org

Participants

Christina Abuelo, (former)
Market Manager
Foothill Farmers Market Association

Cindy Fake, Horticulture & Small Farms Advisor
UCCE Placer and Nevada Counties

Roger Ingram, UC County Director and Farm Advisor
Placer and Nevada Counties

Cooperators

Joanne Neft, (former) Director
Nancyjo Rieske (former) Director
Placer County Agricultural Marketing Program

SARE Grant: \$98,395

or understand their significance.

Helping local producers find new marketing channels could strengthen their economic viability to resist development pressures and preserve the county's quality of life.

Objectives

- Help producers identify, address, and cultivate new markets
- Teach producers how to market themselves as sources of agricultural products of superior flavor and freshness in Placer County's suburban centers and beyond
- Increase the resiliency of the agricultural community to development pressures

Actions

The project team took a multidimensional approach to help producers promote and market locally grown products:

- Conducted a producer survey to identify marketing channels of greatest producer interest and a consumer survey to assess attitudes and preferences regarding local produce and producers.

This Guide to Placer County Agriculture was one of several promotional pieces produced during the project.

- Guided by a producer-led steering committee, conducted an opening retreat in 2005, and subsequent meetings in 2006 and 2007, to develop and implement plans to cultivate new marketing channels and to craft strategies for providing farmers with resources to cultivate those channels.
- Conducted farmer-to-farmer networking meetings to promote relationship building and develop project collaboration.
- Planned and held annual PlacerGROWN Food and Farm conferences that showcased innovative and successful marketing ideas and models. These included market-

SARE's mission is to advance—to the whole of American agriculture—innovations that improve profitability, stewardship, and quality of life by investing in groundbreaking research and education.

The Western Region, one of four SARE regions nationwide, is administered through Utah State University.

DIRECT MARKETING EDUCATION

ing workshops to educate producers on meeting needs and requirements of consumers and produce buyers.

- Worked with local producers to pilot, develop, and operate a collaborative CSA, from which evolved a manual, "Collaborative Community Supported Agriculture: A New Direct Marketing Opportunity for Placer County Producers."

Results

Community Supported Agriculture

After a successful CSA pilot in 2006, PlacerGROWN helped producers offer the PlacerGROWN Harvest Box, a weekly delivery of fruits and vegetables. The customer base doubled to 50 and the length of season doubled to 16 weeks, resulting in delivery of 739 boxes. The CSA targeted workplaces, including Placer County, Kaiser Hospital, Sierra College, and the City of Roseville.

A survey of subscribers showed that:

- 65% loved the harvest box
- 63% would subscribe again
- 95% liked the convenience

Mountain Mandarin Growers' Association

PlacerGROWN helped develop the association, working with mandarin growers to develop a logo, website (www.mountainmandarins.com), marketing brochure, and the Mountain Mandarin Tour. PlacerGROWN helped the association obtain a grant to place an ad in *Sunset* magazine that included a reader response card that generated 700 requests. PlacerGROWN responded by sending the PlacerGROWN Local Food Guide and other Placer-

GROWN material.

Direct Marketing to Restaurants

In 2005, PlacerGROWN worked with project participants to launch a promotion, "Placer County Wines and Dines," to introduce products to restaurants. PlacerGROWN facilitated and organized two meetings between farmers and restaurateurs, including a tasting at a local vineyard, to assess opportunities and barriers for buying local produce, meat, and wine. Five restaurants became members of PlacerGROWN, and a restaurant listing was added to the Local Food Guide and website.

Wine and Tourism Brochure

Placer County's 10 wineries received assistance to develop a brochure and marketing plan. Fifty thousand brochures were distributed at local events and outlets, and the wineries distributed the brochure to their mailing lists. Through an ad in *Sunset* magazine, 300 brochures were mailed in response to reader requests.

Institutional Buyers

The Foothills Farmers Market Association and PlacerGROWN developed a relation-

ship with Kaiser Permanente to host a farmers market at a large Kaiser facility and offer harvest boxes to employees.

Branding, Marketing, Farm Stories, and Outreach

Workshops and meetings focused on branding and marketing family farms. The PlacerGROWN website (www.placergrown.org) and newsletter were redesigned. The newsletter, published quarterly with distribution of 2,500, features farmers and their stories, lists of locally available products, recipes, events calendar, and more.

Potential Benefits/Impacts

The most important impact has been increasing producer knowledge, awareness, attitudes, and skills.

- Small-scale producers better understand opportunities and challenges of direct marketing
- They have more tools with which to work, including community supported agriculture, marketing to restaurants and retailers, and on-farm events and promotions
- They have experience with networking, teamwork, and problem-solving
